# Contents of Volume 2

## No. 1

*Original Papers*

**Factors influencing synthesis and activity of β-galactosidase in *Lactobacillus acidophilus* (SIM 00055)** . . . . . 1
by T. Bhowmik, M.C. Johnson and B. Ray (U.S.A.)

**Production of mycelial protein and hydrolytic enzymes from paper mill sludges by cellulolytic fungi (SIM 00056)** . . . . . 9
by J.C. Royer and J.P. Nakas (U.S.A.)

**A proton-deuterium exchange study of three types of *Desulfovibrio* hydrogenases (SIM 00057)** 15
by G.D. Fauque, Y.M. Berlier, M.H. Czechowski, B. Dimon, P.A. Lespinat and J. LeGall (France and U.S.A.)

**Conjugal transfer of lactose-fermenting ability from *Streptococcus lactis* C2 to *Leuconostoc cremoris* CAF7 yields *Leuconostoc* that ferment lactose and produce diacetyl (SIM 00058)** . . 25
by H.-J. Tsai and W.E. Sandine (U.S.A.)

**Fuel-soluble biocides for control of *Cladosporium resinae* in hydrocarbon fuels (SIM 00059)** . 35
by G. Andrykovitch and R.A. Neihof (U.S.A.)

**Growth of *Thiobacillus ferrooxidans* on solid media containing heterotrophic bacteria (SIM 00060)** . . . . . 41
by B.J. Butler and A.G. Kempton (Canada)

**High-cell-density fermentation studies of a recombinant *E. coli* that expresses atrial natriuretic factor (SIM 00061)** . . . . . 47
by F.J. Bailey, J. Blankenship, J.H. Condra, R.Z. Maigetter and R.W. Ellis (U.S.A.)

**Effect of glycerol, polyethylene glycol and glutaraldehyde on stability of phenylalanine ammonia-lyase activity in yeast (SIM 00063)** . . . . . 53
by C.T. Evans, C. Choma, W. Peterson and M. Misawa (Canada)

*Short Communication*

**A quantitative method for predicting shelf life of soft drinks using a model system (SIM 00062)** 59
by M.B. Cole and M.H.J. Keenan (U.K.)

## No. 2

*Original Papers*

**Association of acid-producing thiobacilli with degradation of concrete: analysis by 'signature' fatty acids from the polar lipids and lipopolysaccharide (SIM 00064)** . . . . . 63
by B.D. Kerger, P.D. Nichols, W. Sand, E. Bock and D.C. White (U.S.A., Australia and F.R.G.)

**Genetic recombination by fusion in *Nocardia asteroides* (SIM 00065)** . . . . . 71
by M.C. Liechty, S.G. Bradley and K.L. Kasweck (U.S.A.)

**High-productivity fermentation process for cultivating industrial microorganisms (SIM 00066)** 79
by L.K. Shay, H.R. Hunt and G.H. Wegner (U.S.A.)

**Effects of fermentation feeding strategies prior to induction of expression of a recombinant malaria antigen in *Escherichia coli* (SIM 00067)** . . . . . 87
by D.W. Zabriskie, D.A. Wareheim and M.J. Polansky (U.S.A.)

**Degradation of sodium polyglyoxylate, a non-persistent metal sequestrant, in laboratory ecosystems (SIM 00068)** . . . . . 97
by W.E. Gledhill and V.W. Saeger (U.S.A.)

**Prediction of biodegradability for selected organic chemicals (SIM 00069)** . . . . . 107
by L. Babeu and D.D. Vaishnav (U.S.A.)
**Fermentation of recombinant yeast producing hepatitis B surface antigen (SIM 00070)** . . . 117
by C.E. Carty, F.X. Kovach, W.J. McAleer and R.Z. Maigetter (U.S.A.)
**Extracellular amylase production by cassava-fermenting bacteria (SIM 00071)** . . . . . 123
by O.O. Amund and O.A. Ogunsina (Nigeria)

## No. 3

*Original Papers*
**Continuous immobilized cell reactor for amide hydrolysis (SIM 00072)** . . . . . 129
by N. Bernet, A. Thiéry, M. Maestracci, A. Arnaud, G.M. Rios and P. Galzy (France)
**The involvement of cytochrome *P*-450 monooxygenase system in aflatoxin biosynthesis by *Aspergillus flavus* (SIM 00073)** . . . . . 137
by A.B. Hamid and J.E. Smith (U.K.)
**Production of phenylalanine and organic acids by phospho*enol*pyruvate carboxylase-deficient mutants of *Escherichia coli* (SIM 00074)** . . . . . 143
by J.E. Miller, K.C. Backman, M.J. O'Connor and R.T. Hatch (U.S.A.)
**DNA-DNA hybridizations among lactic streptococcal temperate and virulent phages belonging to distinct lytic groups (SIM 00075)** . . . . . 151
by M. Lautier and G. Novel (France)
**Selection in yeast. I: Assessing genetic stability and relative fitness of commercial yeasts (SIM 00076)** . . . . . 159
by R.E. Subden, R.L. Charlebois and C.K. Carey (Canada)
**Selection in yeast. II:The fitness distribution of new mutations in *Saccharomyces cerevisiae* and its use in a computer simulation (SIM 00077)** . . . . . 167
by R.L. Charlebois, R.E. Subden and K. Carey (Canada)
**Isolation of a transglucosidase-nonproducing mutant of *Aspergillus awamori* yielding improved quality and production of amyloglucosidase preparations (SIM 00078)** . . . . . 175
by D.N. Shah, N.K. Shah and R.M. Kothari (India)
**The effect of organic nitrogen and glucose on the production of recombinant human insulin-like growth factor in high cell density *Escherichia coli* fermentations (SIM 00079)** . . . . . 181
by L.B. Tsai, M. Mann, F. Morris, C. Rotgers and D. Fenton (U.S.A.)
**Optically monitoring Baker's yeast (*Saccharomyces cerevisiae*) growing in an air-fluidized/expanded potato starch matrix (SIM 00080)** . . . . . 187
by K. Hong, D.-H. Park, R.D. Tanner, W.M. Reed and G.W. Malaney (U.S.A.)

## No. 4

*Original Papers*
**Phytase production by *Aspergillus ficuum* on semisolid substrate (SIM 00081)** 195
by Y.W. Han, D.J. Gallagher and A.G. Wilfred (U.S.A.)
**Cell-free synthesis of the dipeptide antibiotic bacilysin (SIM 00082)** . . . . . 201
by M. Sakajoh, N.A. Solomon and A.L. Demain (U.S.A.)
**Transformation of *Streptomyces avermitilis* by plasmid DNA (SIM 00083)** . . . . . 209
by D.J. MacNeil and L.M. Klapko (U.S.A.)
**Bacterial transport through porous solids: interactions between *Micrococcus luteus* cells and sand particles (SIM 00085)** . . . . . 219
by S.W. Shales and S. Kumarasingham (U.K.)
**pH dependence of the in situ formation of an organic *N*-chloramine water disinfectant (SIM 00084)** . . . . . 229
by E.D. Elder, S.D. Worley and D.E. Williams (U.S.A.)

**Sporulation of *Streptomyces roseosporus* in submerged culture (SIM 00088)** . . . . . 235
by F.M. Huber, R.L. Pieper and F.P. Mertz (U.S.A.)
**Increased sensitivity and discrimination in screening through an immobilized-resin microbiological assay method (SIM 00087)** . . . . . 243
by H.Y. Wang and J.J. Seaton (U.S.A.)
**Methionine induction of ACV synthetase in *Cephalosporium acremonium* (SIM 00092)** . . . 251
by J.-y. Zhang, G. Banko, S. Wolfe and A.L. Demain (U.S.A., Canada)

## No. 5

*Original Papers*
**Cellulose degradation by a mixed bacterial culture (SIM 00089)** . . . . . 257
by S. Soundar and T.S. Chandra (India)
**Insecticidal and nematicidal properties of microbial metabolites (SIM 00090)** . . . . . 267
by S.K. Mishra, J.E. Keller, J.R. Miller, R.M. Heisey, M.G. Nair and A.R. Putnam (U.S.A.)
**Batch and continuous culture production of the mosquito larval toxin of *Bacillus sphaericus* 2362 (SIM 00093)** . . . . . 277
by A.A. Yousten and D.A. Wallis (U.S.A.)
**Initial studies of the use of aminopeptidases for the differentiation of *Bacillus sphaericus* strains (SIM 00097)** . . . . . 285
by B.K. Williston and S. Singer (U.S.A.)
**Actinophages and restriction enzymes from *Micromonospora* species (Actinomycetales) (SIM 00094)** . . . . . 293
by J.L. Meyertons, B.C. Tilley, M.P. Lechevalier and H.A. Lechevalier (U.S.A.)
**Data acquisition and control of a continuous fermentation unit (SIM 00095)** . . . . . 305
by M.N. Karim and G. Traugh (U.S.A.)

*Short Communication*
**Direct detection of an antimicrobial peptide of *Pediococcus acidilactici* in sodium dodecyl sulfate-polyacrylamide gel electrophoresis (SIM 00091)** . . . . . 319
by A.K. Bhunia, M.C. Johnson and B. Ray (U.S.A.)

## No. 6

*Original Papers*
**Stabilization of a *E. coli* plasmid by a mini-F fragment of DNA (SIM 00096)** . . . . . 323
by H. Yukawa, Y. Kurusu, M. Shimazu, H. Yamagata and M. Terasawa (Japan)
**Effects of biocide treatment and backflow pressure on the permeability of microbially fouled model cores (SIM 00098)** . . . . . 329
by F. Cusack, H.M. Lappin-Scott and J.W. Costerton (Canada)
**Biosynthesis of acyclic methyl branched polyunsaturated hydrocarbons in *Pseudomonas maltophilia* (SIM 00099)** . . . . . 337
by Y. Suen, G.U. Holzer, J.S. Hubbard and T.G. Tornabene (U.S.A.)
**CP-61,405, a novel polycyclic pyrrolether antibiotic produced by *Streptomyces routienii* Huang sp. nov (SIM 00100)** . . . . . 349
by W.P. Cullen, W.D. Celmer, L.R. Chappel, L.H. Huang, M.T. Jefferson, M. Ishiguro, H. Maeda, S. Nishiyama, J.R. Oscarson, R. Shibakawa and J. Tone (Japan, U.S.A.)
**Production of butyric acid by batch fermentation of cheese whey with *Clostridium beijerinckii* (SIM 00101)** . . . . . 359
by S. Alam, D. Stevens and R. Bajpai (U.S.A.)

**Osmotic pressure effects and intracellular accumulation of ethanol in yeast during fermentation (SIM 00103)** . . . . . 365
by T. D'Amore, C.J. Panchal, I. Russell and G.G. Stewart (Canada)
**Toxicity of methyltins to microbial populations in estuarine sediments (SIM 00102)** . . . . 373
by G.W. Pettibone and J.J. Cooney (U.S.A.)

*Author Index* . . . . . 379
*Subject Index* . . . . . 383
*Contents of Volume 2* . . . . . 385
